

A large-scale industrial facility, likely a refinery or chemical plant, is shown at night. The scene is filled with complex piping, scaffolding, and various industrial structures. Several tall distillation columns and large storage tanks are visible, illuminated by warm yellow lights that contrast with the dark blue twilight sky. The overall atmosphere is one of industrial activity and scale.

SUPPLIER PRODUCER

+

From the very beginning of Ishtar Company, our flexibility and ability to accept change with an open mind has led us to stay true to our mission of providing the best services and products with the best quality in every sector in which we operate. We believe that the success and growth of our business can be attributed to the consistency of our standards and policies and the efforts of our international partners. In addition, our sensitivity and accuracy in selecting and hiring professional staff has enabled us to comply with the best international standards.

PETROLEUM RODUCTS

Petroleum products are materials derived from crude oil (petroleum) as it is processed in oil refineries. Unlike petrochemicals, which are a collection of well-defined usually pure organic compounds, petroleum products are complex mixtures. Most petroleum is converted into petroleum products, which include several classes of fuels.

According to the composition of the crude oil and depending on the demands of the market, refineries can produce different shares of petroleum products.

Our Petroleum products are as follows:

Base Oil

Bitumen

Paraffin Wax

Sulfur

Diesel Fuel

PETROCHEMICAL RODUCTS

The leading products in high demand are Chemicals and Petrochemicals. Both of them are the most essential products worldwide. They are used in many different industries, including Cosmetics, Detergents, Automobiles, and Food.

Our Petrochemical and Chemical products are as follows:

- ▶ Monoethanolamine (MEA)
- ▶ Diethylene Glycol (DEG)
- ▶ Mono Ethylene Glycol (MEG)
- ▶ UREA FERTILIZER N46% (CARBAMIDE)
- ▶ Ethylene Dichloride (EDC)
- ▶ POLYETHYLENE GLYCOL (PEG)
- ▶ CAUSTIC SODA

CHEMICAL RODUCTS

▶ Sodium Bicarbonate (Baking Soda)

▶ Soda Ash (Sodium Carbonate)

MINERAL

RODUCTS

Mineral products are materials that are made from naturally occurring substances in the earth's crust. They are processed and refined to create usable materials that have various industrial, construction, and technological applications.

Our Mineral products are as follows:

- ▶ Kaolin
- ▶ Salt
- ▶ Bentonite Powder
- ▶ Hematite Powder
- ▶ Magnesium Oxide
- ▶ Calcium Carbonate
- ▶ Barite Powder

QUALITY MANAGEMENT

Since providing the best services with the highest quality is the main priority of Barus Company, so this company has obtained the following certifications:

- 1- Quality management system: ISO 9001
- 2- Customer satisfaction for complains handling in organizations: ISO 10002
- 3- Customer satisfaction guidelines for monitoring and measuring: ISO 10004

ABOUT BARUS HOLDING

Barus Holding found its work with a small company in the field of export and import in 2000 and quickly expanded its work. In a short time, Barus Holding established several manufacturing and trading companies in Petroleum, Petrochemical, and Chemical products and is currently one of the market leaders in supplying essential products in the field of Petroleum, Petrochemical, and Polymer industries.

Then, Barus Holding entered the construction and real estate industry, and currently, Barus Properties is one of the best real estate and construction companies in Turkey.

Barus Holding also entered the jewelry industry in recent years. Barus Jewelry Company currently manufactures jewelry products with the best design and quality and exports them to several countries worldwide.

Also, Barus Holding has entered the financial and finance industry and actively invests in various financial and investment markets. The vision of Barus Holding is to create very high profits for investors, provide high-quality products and create customer satisfaction. Barus is constantly progressing and uses the latest technologies to serve customers.
